

# NEWSLETTER 1 May 2019

## Welcome to VORM Tutoring's first Newsletter!

VORM Tutoring offers online tutoring Dutch to IB students (16-19 years) and to students preparing for the IB (14-16 years).

In this first Newsletter we would like to point out in particular:

1. our teaching materials;
2. our services as an information centre.

Further, we would like to highlight our cooperation with Stichting INIO, our weekly blog and our introductory offer for registration before 1 July.

Pieter van der Vorm

## Pieter van der Vorm, let me introduce myself...

As an experienced teacher in international education, I have been working for the NTC (Dutch school) in Vienna and have been tutoring Dutch to IB students at various international schools.

From 2013 to 2018 I worked for IBID. I supervised dozens of students for *Dutch A: Literature* and was the coordinator of the SSST programme. In this position, I supervised and supported teachers, and also developed a great deal of the teaching materials.

With the new IB curriculum approaching, it was time for a new challenge. Since last summer I have been working on a brand-new programme - which is challenging, playful and creative. VORM offers high quality, both in teaching materials and in personal tutoring.

---

### Information centre

VORM Tutoring is also an information centre, where parents, students and teachers can get (free) tips and advice.

Parents can ask questions about the IB curriculum and/or the personal situation of the student can be discussed. Teachers can contact VORM for information or advice. This may include a check whether the literature list meets all formal requirements.

You can ask your question by e-mail at [info@vormtutoring.com](mailto:info@vormtutoring.com). There is always the opportunity to make a Skype appointment to discuss your question in detail.

## Teaching materials

VORM spends much time and care on developing teaching materials. We are eager to show them. [Here](#) (click on the link) you can find our teaching package for Marjane Satrapi's graphic novel *Persepolis* (only in Dutch).

In total (pre-IB and IB) we offer packages for over twenty books. All have been developed according to the guidelines of the new IB curriculum.

*Books on our literature list for pre-IB and IB*

## Blog

Every Tuesday a blog is published on [www.vormtutoring.com](http://www.vormtutoring.com). I have merged all blogs till now into one PDF. You can download the document [here](#) (only in Dutch).

---

## Cooperation with INIO

Next academic year, VORM Tutoring will cooperate with Stichting INIO. INIO is a professional organisation, affiliated to the NOB, that guides students in primary education and in the first years of secondary education.

VORM is very happy with this contact. INIO is a specialist in the years prior to the (pre-)IB programme. VORM hopes to exchange ideas with INIO, about (a.o.) a continuous learning path from primary education to the IB.

This cooperation will make both organisations broader and thus stronger. The substantive discussions about education will undoubtedly bring us new ideas and stimulate us.

inio...

## € 100,- introductory offer for early registration

You can register for the VORM programmes at our website.

Registering before the summer holidays is helpful to us, as it will enable us to send all books on time. In addition, an early registration is pleasant for you, as parents. If you register before 1 July, we offer a discount of € 100,- on the regular tariff.

For registration before 1 July 2019, the tariffs are as follows:

pre-IB: **€ 2250,-** for one year (incl. books)

IB: **€ 2900,-** for one year (incl. books)
